**Rhonda M. Jones Pharm D, Raylene M. Rospond Pharm D BCPS : Patient Assessment in Pharmacy Practice** before purchasing it in order to gage whether or not it would be worth my time, and all praised Patient Assessment in Pharmacy Practice:

3 of 3 people found the following review helpful. GreatBy BriannaNeeded for pharmacy school. Came as expected9 of 9 people found the following review helpful. Patient Assessment in Pharmacy PracticeBy Sean P.This book is an excellent companion to any student pharmacist's library. It contains important at-a-glance tables, a complete set of exam procedures, and a summary of anatomy, physiology and pathology.1 of 1 people found the following review helpful. You are probably buying this book because it is a class requirement.By DramaBearGreat cases studies and breakdown for understanding.I am sure no one is buying this book for reading fun, but for a class required reading.

Pharmacy students and practicing pharmacists will benefit from learning the latest in patient assessment skills. This all-

inclusive text emphasizes basic AP and symptomology, interviewing skills and assessment techniques. Plus, to meet the needs of today's pharmacist, each chapter explores pharmacy practice applications for ambulatory care and special communities such as pediatric and geriatric settings. Part I focuses on fundamental assessment processes and skills. Part II progresses logically into patient assessment by specific body systems. Inside you'll find: Assessment techniques for special populations in every chapter Extensive use of case studies and patient decision trees that bring theory and technique to life Pharmaceutical Care Plans that correspond to case studies for practical applications Special sidebar highlights on the Signs and Symptoms of Diseases, Causes of Diseases, and Drug-Related Causes of Diseases Complete glossary of terms Rich visual content including vivid, full-color plates of diseases, numerous two-color illustrations, and black-white photography With its breadth of content and reader-friendly design, Patient Assessment in Pharmacy Practice is an especially strong resource for pharmacy students who are about to enter their introductory clinical clerkships. Practicing pharmacists will value the up-to-date practice applications for the special communities they serve.
