Pediatric Code Crosswalk: ICD-9-CM to ICD-10-CM, 2nd Edition is designed as a quick reference for pediatric diagnosis coding and will assist in the integration of the ICD-10-CM nomenclature and code set into practice. This spiral-bound quick reference guide simplifies the transition process by listing ICD-9-CM codes for the most common

pediatric diagnoses right alongside their ICD-10-CM counterparts to assist selecting the most appropriate code conversion. In addition, this guide assist pediatric providers and coders by streamlining pediatric diagnosis coding for ICD-10-CM and includes basic guidelines for selecting appropriate codes for commonly encountered pediatric diagnoses and diseases. All codes are indexed by diagnosis and organized alphabetically for easy identification. A glossary of medical abbreviations accompanies this guide. nbsp; Also, for this new and updated edition, numerous coding tips, tables, and tools have been included alongside the cross-walked codes, as well as an expansive appendix, featuring ICD-10 related articles on various implementation strategies, transition considerations, and other best coding practices.

About the Author Jeffrey Linzer Sr, MD, FAAP, FACEP, is the associate medical director for compliance for the Emergency Pediatric Group/Division of Pediatric Emergency Medicine, Children's Healthcare of Atlanta and associate professor in the Departments of Pediatrics and Emergency Medicine at Emory University School of Medicine. Dr Linzer has been a member of the American Academy of Pediatrics (AAP) since 1987 and is active in the AAP sections on Emergency Medicine and Transport Medicine. He is also a member of the AAP Committee on Coding and Nomenclature and serves as the AAP representative to the ICD-9-CM Editorial Advisory Board. Additionally, Dr Linzer has taken on the role as chair of the first ever pediatric topical advisory group (TAG) as ICD undergoes its 11th revision under the auspice of the World Health Organization. Dr Linzer is an expert in ICD guidelines and implementation and has been actively involved in the ICD-10-CM transition in the United States
