From Springer : Pediatric Ophthalmology and Strabismus before purchasing it in order to gage whether or not it would be worth my time, and all praised Pediatric Ophthalmology and Strabismus:

0 of 0 people found the following review helpful. outstanding text, improved pediatric ophthalmology skillsBy mytwosonsdadwhat you see is one terrific medical text book. this book is ideally for those in pediatric ophthalmology, optometry, orthoptics, and pediatric medicine. it is amazingly comprehensive and provides a terrific depth in coverage of the field. highly recommended.1 of 1 people found the following review helpful. DR ADAM KOENIGSBERG MD REVIEWBy Adam KoenigsbergThis is an excellent text. I know Drs Spiegel and Wright personally. They do an excellent job of providing an extremely comprehensive text on pediatric ophthalmology and strabismus. Adam Koenigsberg MD

to the Second Edition here have been significant changes in pediatric Chapter 56 by Maya Eibschitz-Tsimhoni, MD, is

a T ophthalmology and strabismus since the first wonderful contribution to the literature, as it reviews edition. Great effort has gone into incorporat 235 important ocular disorders that have systemic ing recent advances into this second edition. Each manifestations, and it includes a detailed glossary of chapter in the book has been revised, and over half of terms. them have been completely rewritten. In addition to As with the first edition, our goal is to present a updating and revising the entire book, we have added comprehensive textbook of pediatric ophthalmology three new chapters: Chapter 7 on electrophysiology and strabismus written in a clear, reader-friendly style. and the eye, Chapter 1 7 on strabismus surgery, and Our hope is that the readerwill find the second edi Chapter 56 on congenital syndromes with ocular man tion of Pediatric Ophthalmology and Strabismus to ifestations. Chapter 17 is the definitive work on pedi be scientifically informative, clinically useful, and en atric ocular electrophysiology, bar none, and was fin joyable to read. ished just weeks before the untimely death of its author, Dr. Tony Kriss (see tribute in Chapter 17).

From the reviews of the second edition: "It covers the field of paediatric ophthalmology in a systematic and encyclopaedic fashion. ... In summary, this text gives an excellent account of paediatric ophthalmology and strabismus . As a reference text it is strongly recommended for inclusion in the libraries of paediatric hospitals." (JE Elder, Journal of Paediatrics and Child Health, Vol. 39 (9), 2003)From the Back CoverNo BCCAbout the AuthorKenneth W. Wright, M.D. currently holds an appointment at Head of the Pediatric Ophthalmology and Strabismus Department at the Cleveland Clinic in Ohio. He formerly held an appointment as Associate Professor of Ophthalmology and Pediatrics at the University of Southern California School of Medicine, which included teaching responsibilities with ophthalmology residents at the USC Doheny Eye Institute and Children?s Hospital of Los Angeles with pediatric residents. Among professional associations, Dr. Wright is an active member of theAmerican Academy of Ophthalmology, American Research Vision Organization, and the American Association of Pediatric and Ophthalmic Surgeons, as well as in General Pediatrics with the American Academy of Pediatrics. His credentialsas a leader in Pediatric Ophthalmology and Strabismus are well founded as hechairs the Membership, Credentials, and Nominating committees of the American Association of Pediatric Ophthalmology. His most well known publications include the series which he co-edited with Stephen Ryan (author of our Retina book) entitled Color Atlas of Ophthalmology (8 volume set, each volume 200 pages, 125 illustrations, 71 of which are color, J.B. Lippincott, published 1991) and the definitive reference, Pediatric Ophthalmology and Strabismus, published by Mosby in 1995.
