Jean W. Solomon MHS OTR/L, Jane Clifford O'Brien PhD OTR/L : Pediatric Skills for Occupational Therapy Assistants, 3e before purchasing it in order to gage whether or not it would be worth my time, and all praised Pediatric Skills for Occupational Therapy Assistants, 3e:

3 of 3 people found the following review helpful. GREAT BOOKBy JMSThere is great information in this book and it is up to date and very well written! Each chapter has recommended readings, review questions and summaries. There is a dictionary in the back and blank assessments. The index is also spot on. Sometimes the index is no help but the authors of this book knew what they were doing. The book is also written in a very positive manner which makes it a pleasure to read. It is a textbook but I will NOT be selling this one!0 of 0 people found the following review helpful. Well organized and easy to study from or go back to for referenceBy Pretty in PetworthWell organized and easy to study from or go back to for reference. I bought this to study for boards b/c the book we used in class was dry and not thorough or well organized. It doesn't expand on a lot of topics, but it's a good quick reference tool.0 of 0 people found

the following review helpful. Five StarsBy JulianaPerfect as expected

Utilizes a family-centered perspective, using the terminology of the AOTA Practice Framework, which focuses on tailoring the OT approach to meet the needs of children within the context of their own environments. Includes evidence-based content such as clinical trials and outcome studies that demonstrate the basis for OTA best practices. Presents case examples that show how key concepts apply to real-life situations. UNIQUE! Features expert advice and tips from the authors and contributors in highlighted Clinical Pearls boxes. Addresses cultural diversity and sensitivity to introduce you to the wide groups of people that OTAs treat. Incorporates prevention as a role OTAs have in addition to intervention and treatment. Contains suggested activities in each chapter that help bridge the gap between the classroom and the clinic. Prepares you for the information you're expected to learn from the chapter with key terms, chapter outlines, and chapter objectives at the beginning of each chapter. Helps you assess and evaluate what you've learned with review questions and summaries at the end of each chapter. UNIQUE! Evolve website offers a variety of video clips and learning activities to help reinforce the material you learn in the text. UNIQUE! Demonstrates how concepts apply to practice with video clips on the Evolve website that exhibit pediatric clients involved in a variety of occupational therapy interventions. UNIQUE! Prepares you for new career opportunities with content on emerging practice areas such as community systems. UNIQUE! Offers new assessment and intervention strategies with the addition of content on Model of Human Occupation (MOHO) assessments and physical agent modalities (PAMS). Provides the latest information on current trends and issues such as childhood obesity, documentation, neurodevelopmental treatment (NDT), and concepts of elongation.
