**From Woodhead Publishing : Pesticide, Veterinary and Other Residues in Food (Woodhead Publishing Series in Food Science, Technology and Nutrition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Pesticide, Veterinary and Other Residues in Food (Woodhead Publishing Series in Food

Science, Technology and Nutrition):

This wide-ranging text reviews the wealth of recent research on assessing and managing the risks from pesticide, veterinary and other chemical residues in food. After an introductory chapter on the key issues in food toxicology, Part one covers the assessment and management of risks, with individual chapters on genetic susceptibility to dietary carcinogens, good agricultural practice and HACCP systems, targeted and rapid methods for analysing residues in food and ways of assessing the mutagenicity of chemicals in food. Part two looks at veterinary residues, covering their safety, toxicology and detection. Part three examines pesticides, with chapters on surveillance and detection methods for fungicides and herbicides. In the final part, there are chapters summarising a wide range of other chemical residues in food, from xenostrogens/endocrine disruptors and dietary estrogens to polycyclic aromatic hydrocarbons, dioxins and polychlorinated biphenyls. Pesticide, veterinary and other residues in food is a standard reference for all those concerned with ensuring the safety of food. Reviews residue detection, risk assessment and risk management. Extensive coverage of chemical residues. Indispensable resource for all food producers.

An essential reference for anyone concerned with food safety. A wealth of research is contained in this Woodhead publication. South African Food; a valuable resource for all producers of food with contributions from worldwide leading experts in the field. Advances in Food Sciences. The wide-ranging text reviews the wealth of recent research on assessing and managing the risks from pesticide, veterinary and other chemical residues in food. Food Trade. About the Author. Dr. David Watson is formerly Head of Branch 4 of the Chemical Safety and Toxicology Division in the UK Food Standards Agency. He has written widely in such areas as natural toxicants and organic environmental contaminants.
