**Dr. Rae Morgan, Dr. Margaret Johnson : Pharmacology for Podiatrists** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Pharmacology for Podiatrists:

Proposed changes in practice legislation will allow podiatrists to prescribe a limited range of drugs and dressings. It is therefore now imperative that students and practitioners understand pharmacology. Not only the mechanisms of action of drugs, but also their potential side-effects and interactions with other drugs taken by the patient. This book will

cover both basic and clinical pharmacology. The podiatrist's role in examination, assessment and diagnosis are considered.

From the Back Cover Proposed changes in practice legislation will allow podiatrists to prescribe a limited range of drugs and dressings. It is therefore now required that students and practitioners understand pharmacology. The book will cover both basic and clinical pharmacology and the podiatrist's role in examination, assessment and diagnosis. About the Author Dr Rae Morgan, School of Podiatric Medicine, New College Durham, UK Dr Margaret Johnson, Department of Pharmacology, University of Sunderland, UK
