James Van Rhee MS PA-C : Physician Assistant Board Review: Certification and Recertification with online exam simulation. Expert Consult - Online and Print, 1e before purchasing it in order to gauge whether or not it would be worth my time, and all praised Physician Assistant Board Review: Certification and Recertification with online exam simulation. Expert Consult - Online and Print, 1e:

1 of 1 people found the following review helpful. Great book!By Kate Sauer-jonesIts a great book. Its the only review book I studied from for my boards and I passed. The practice questions were AWESOME! I did find some mistakes but nothing that would make or break a score.0 of 0 people found the following review helpful. PA Board ReviewBy

Katie Ponsford I like the way the book is organized with an outline format and periodic questions throughout. It is easy to follow and easy to find information from both the glossary and the table of contents. I hope I pass my board exam!
7 of 8 people found the following review helpful. PA Board Review By HN
This book is outdated and inaccurate. In addition, the chapters are not well organized. In addition there are several typos and errors which cause contradictions within the book. This book is ok to use to refresh your memory, as long as you know your stuff well enough to spot the mistakes.

Whether you're a recent graduate or a seasoned professional, you understand the gravity of your obligation to obtain and maintain your certification. This new study guide embodies the practice-makes-perfect philosophy by offering you a comprehensive body of material that will help you master the information tested on the PANCE and PANRE. With an outline format that follows the NCCPA blueprint, a dynamic test simulator on CD-ROM, more than 1,500 study questions, and a wealth of helpful tools, you'll find this ideal review to be an essential part of your future. Features questions on each page and at the end of every chapter - recall as you read helps you recall the information later on. Provides thorough explanations to strengthen your understanding of the rationale behind every answer. Incorporates extensive tables, charts, and photos to enhance learning and preparation. Includes access to a web site where you can take a 300-question, timed simulation of the Boards and score yourself to check your results
