I looked over them right before I took PACKRATS and felt a lot more comfortable about that exam afterwards! BlackWell I didn't like them. I was way bummed as I was excited for some good PANCE flashcards. Did not know how close to PANCE blue print these were and the paper was not quality flash card paper which made them awful to use. Nice try, skip these. If they updated it to follow PANCE blueprint and used good quality flash card stock then maybe it would be better?
