**Yuval Dan Bar-Or : Pillars of Wealth: Finance Business Essentials for Medical Practices** before purchasing it in order to gage whether or not it would be worth my time, and all praised Pillars of Wealth: Finance Business Essentials for Medical Practices:

0 of 0 people found the following review helpful. Medical Practices Need ThisBy Dr. Joseph HazanBetter choices for medical practices.

The objective of this book series is to provide practical and nuanced advice doctors can use to make better financial and business decisions for themselves and their families. This book aims to help you launch, manage, and grow your private practice. The content was prepared for doctors - in collaboration with doctors. The author comes from a medical family and is a management consultant and financial risk management expert.

A must read for every healthcare provider who wants to succeed. Useful information, to the point and easy to understand. I wish I had this book when I started my career.- Dr. Erick A. Hosaka, DDS, MBA  
In the rapidly evolving healthcare marketplace, all physicians, new and established, employed and independent, will appreciate the thorough and detailed exam which Dr. Bar-Or gives to that most private and sensitive of areas - their personal and business finances. Dr. Bar-Or follows up on his easy to read prescription for personal finances in volume one, with a careful dissection of how to organize, launch, run, grow, and protect a healthcare practice in volume two. His blueprint is a timeless algorithm that busy physicians should master early.- Richard E. Rubin, MD, FACC, Bethesda, Maryland  
The [Pillars of Wealth] books are straight forward, easy to read, thorough, yet not mired in financial jargon. In short, you can learn and do so easily ... I will go so far as to say they should be must reading for all medical students and residents. - Dr. Stephen C. Schimpff, former CEO of the University of Maryland Medical Center  
About the Author  
Dr. Yuval Bar-Or is a leading expert in decision-making in the context of risk, and an assistant professor at Johns Hopkins University's Carey Business School, where he primarily teaches investments, wealth management, and risk and accountability courses.
