Virginia M. Axline : Play Therapy, 1e before purchasing it in order to gauge whether or not it would be worth my time, and all praised Play Therapy, 1e:

2 of 2 people found the following review helpful. The model in which all other therapies should begin with. By Ray A Burleigh For anyone interested in children. There is no one quite like Axline. Using the theories of Rogers, Ainsworth and Bowlby Axline has devised a set of therapy principles that will live forever. If your child needs a therapist your

questions should begin with....what do you think about Axline?1 of 1 people found the following review helpful. I would have liked to see this book larger and with "bigger print"By Evelyn G.I had a copy of the first printing of this book in the mid fifties....the hard cover dark green book. It was an invaluable resource in my first years of teaching young children. My book was lost in years of moving around. I would have liked to see this book larger and with "bigger print".0 of 0 people found the following review helpful. Five StarsBy ctevery teacher should be required to read this book

The author discusses the use of play therapy for children with behavioural, emotional or other psychological problems. The bulk of the text consists of highly readable annotated transcripts of therapeutic sessions that illustrate the principles. The transcripts are authentic and the annotations include comments on errors the therapist makes as well as positive points. No other book comes near this one for readability and clinical credibility.The classic work on play therapy with children By the authoress of DIBS - IN SEARCH OF SELF, a highly acclaimed and widely read title Reprinted 19 times in the USA but has been unavailable in the rest of the world until now

From the Inside Flap"The most brilliant and intuitive, as well as the clearest written, work in this field. It is unpretentious yet clearly the most authoritative work that has been published."NORMAN CAMERON, Ph.D.Professor of PsychiatryYale University School of MedicineHere is an intensely practical book that gives specific illustrations of how therapy can be implemented in play contacts, and tells how the toys of the playroom can be vivid performers and aids in growth. As she did with DIBS IN SEARCH OF SELF, Dr. Axline has taken true case histories from the rich mine of verbatim case material of children referred for play therapy, choosing children ranging in age, problem, and personality. It's all here in an important and rewarding book for parents, teachers, and anyone who comes in contact with children.About the AuthorVirginia Axline (1911-1988) was a pioneer of play therapy for children.
