Susan M. Sanderson Author : Practice Management and EHR: A Total Patient Encounter for Medisoft Clinical before purchasing it in order to gage whether or not it would be worth my time, and all praised Practice Management and EHR: A Total Patient Encounter for Medisoft Clinical:

0 of 0 people found the following review helpful. this book seems to be a very good reference guide for basic information and concepts and for ...By AdrianAlf you are going to use Medisoft, this book seems to be a very good reference guide for basic information and concepts and for step-by-step procedures. Sometimes we don't do some task regularly and we might forget how something is done... this book can be useful in those cases.0 of 0 people found the following review helpful. National Certification Career Association NCCA exam Certified Electronic Health Records ProfessionalBy JIMMYit explains the process, and maintain medical records of hospital and clinic patients in a manner consistent with medical, administrative, ethical, legal, and regulatory requirements of the health care system.

Process, maintain, compile, and report patient information for health requirements and standards in a manner consistent with the healthcare industry's numerical coding system0 of 0 people found the following review helpful.
Four StarsBy Sali00Perfect clear for my class

Practice Management and EHR: A Total Patient Encounter for Medisoft Clinical is a unique one-semester text designed to teach allied health students how to work with an integrated practice management and electronic health record program. It covers EHR and insurance and patient billing so students obtain a comprehensive picture of documenting the administrative and clinical tasks that take place during each step of the patient encounter during an office visit. It prepares students for employment in both administrative and clinical positions in a medical office. Visit the PMEHR OLC

About the AuthorSusan M. Sanderson has authored all Windows-based editions of Computers in the Medical Office. She has also written Case Studies for use with Computers in the Medical Office, Electronic Health Records for Allied Health Careers, and Practice Management and EHR: A Total Patient Encounter for Medisoft Clinical. In her more than fifteen years experience with Medisoft, Susan has participated in alpha and beta testing, worked with instructors to site-test materials, and provided technical support to McGraw-Hill customers. In 2009, Susan earned her CPEHR (Certified Professional in Electronic Health Records) certification. In addition, she is a member of the Healthcare Information and Management Systems Society (HIMSS) and the eLearning Guild. Susan is a graduate of Drew University with further study at Columbia University.
