Practice Management for the Dental Team is a complete procedures manual designed to provide step-by-step instructions on how to perform most office procedures in the dental office. This book is not only a thorough training manual for dental assistants but an excellent reference for dental students and new practising dentists. It is an excellent teaching manual for the dental assistant being trained on the job!Emphasizes the importance of the business assistant in the modern dental practice and dentists' utilization of business assistants to effect successful patient management and business procedures Complete procedures manual designed to provide step-by-step instructions on how to perform most office procedures in the dental office Organized into three parts: Business Managment, Communications Management, and Business Office Systems, plus a chapter about how to market your skills Working forms are included in the back of the book. Examples include: sample checks, deposit slips and W2 tax statement, appointment book sheets, incident report of exposure, and job application form. Front Office Practice CD-ROM packaged with text thoroughly addresses all aspects of the dental practice. Instructs students and members of the dental team in the use of office bookkeeping systems.

"Lends order to the administrative chaos and enables everyone to find easily the documents they need. An original overview of effective dental practice management." Le Dentiste, April 2011
