Suzanne Evans Morris, Marsha Dunn Klein : Pre-Feeding Skills: A Comprehensive Resource for Mealtime Development before purchasing it in order to gage whether or not it would be worth my time, and all praised Pre-Feeding Skills: A Comprehensive Resource for Mealtime Development:

0 of 0 people found the following review helpful. Three StarsBy LeslieAlot of repetitive information and not much in the way of treatment0 of 0 people found the following review helpful. Three StarsBy collegestudentThis book is verbose. Could be so much shorter and I would learn the same amount.8 of 8 people found the following review helpful. Very ComprehensiveBy A. OMalleyThis is a fantastic resource. As a fairly new practitioner, this book has really helped me with my approach to my little ones with feeding difficulties. It is very comprehensive- any issue I've had questions about is covered completely. Lots of strategies are offered in excellent detail. I am very pleased with this

purchase.

The book includes fundamental information about normal development in feeding as well as limiting factors that influence feeding. It thoroughly explores assessment and treatment principles. In 12 new chapters, topics discussed include mealtime roles and influences, supportive diagnostic testing, gastrointestinal and sensory influences on feeding, autism, and oral motor skills limitations. Sections have been updated to include new art and current research. Includes mealtime participation exercises and mealtime resources. Spanish translations of parent questionnaires are available.

About the Author Suzanne Evans Morris, Ph.D., CCC-SLP, a speech-language pathologist in private practice near Charlottesville, Virginia, is recognized for her work in identifying and treating pre-speech and feeding disorders in young children. She is the director of New Visions, an organization that sponsors workshops for teaching feeding-related skills and provides family-oriented clinical services. Marcia Dunn Klein, M.Ed., OTR, is a registered occupational therapist and a partner in Pueblo Pediatric Therapy, a cross-disciplinary pediatric therapy practice in Tucson, Arizona. Her practice includes direct pediatric treatment, continuing education workshops, consultation, and materials development.
