From Slack Incorporated : Presbyopia: A Surgical Textbook before purchasing it in order to gage whether or not it would be worth my time, and all praised Presbyopia: A Surgical Textbook:

In the 21st century, the latest developments in ophthalmic surgery are in the field of presbyopia. This dynamic book not only presents the concepts necessary to understand presbyopia, but also offers the surgical possibilities for treating the condition. It is the ideal resource for ophthalmologists who currently perform presbyopic treatment as well as those who desire to move into it. Dr. Amar Agarwal and his contributors have created a complete, thorough book about the management of this condition. It covers the scleral, corneal, and lenticular modifications to treat presbyopia, dissects each technique, and explains how to manage complications of each technique. The most recent treatments, cataract or

clear lens surgery, as well as the no-anesthesia procedure, are discussed in full detail. The latest technique of cataract removal through a 0.9-mm incision by phakonit followed by IOL implantation is also covered. Presbyopia is ophthalmology's new frontier. This in-depth book, developed with input from prominent doctors, paves the way for understanding this emerging topic. Ophthalmologists, optometrists, and residents will benefit from the insightful subject matter contained in this book. Dr. Amar Agarwal is the distinguished winner of the 4th Kelman Award Presented by the Hellenic Society of Intra Ocular Implant and Refractive Surgery Dr. Amar Agarwal is the distinguished winner of the Barraquer Award Presented by the Keratomileusis Study Group Topics covered inside include: Scleral expansion bands Phakonit cataract surgery through a 0.9-mm incision No-anesthesia Cataract Surgery Presbyopic phakic IOL Multifocal IOLs Presbyopic LASIK BR

#8220It is the starting point for all my courses (I teach), especially since it is at present the ONLY such book. It is what I would consider the 'Bible' of Presbyopia. #8212Vivek Kadambi, MD, The Bangalore Hospital, Bangalore; Chinmaya Laser Vision Netralaya, Bangalore; and Kadambi Laser Vision Clinic and Research Foundation Pvt. Ltd. It is exciting to find a textbook dedicated to such a young and rapidly evolving field. The editor and his team of co-authors should be commended for their contributions to this dynamic field." Michael Twa, Optometry and Vision Science#8220This compendium of the latest technology on presbyopia will be excellent reading for any refractive surgeon wanting to stay on the cutting edge of our speciality. Steven B. Siepser, MD, FACS, Ocular Surgery News
