**Kenneth A. Wyka : Respiratory Care In Alternative Sites** before purchasing it in order to gage whether or not it would be worth my time, and all praised Respiratory Care In Alternative Sites:

0 of 0 people found the following review helpful. Five StarsBy TiffanieBrand new book just like stated. Very satisfied customer!!! Great price.0 of 0 people found the following review helpful. Five StarsBy Jessica CarterGreat for my class!8 of 8 people found the following review helpful. First book to address resp.care in alternate sitesBy A CustomerThis text examines every aspect of respiratory care in alternate sites, namely, pulmonary rehab, subacute and long-term care and home care. Types of therapy delivered, reimbursement mechanisms, documentation and other areas are considered. This text also reviews aspects of patient and family education. Great for educators and providers of alternate site care. Nurses and case managers will also find this text a valuable resource. The AARC clinical practice guidelines (CPGs) are referenced throughout. For educators, an instructors' manual is available containing lecture outlines, answers to review questions, learning activity suggestions, transparency masters and a multiple choice question bank after each chapter. Foreward is by AARC Executive Director, Sam P. Giordano, MBA, RRT.

To meet the demands of care at alternate sites such as pulmonary rehabilitation centers, subacute care facilities or the home, respiratory care practitioners must become multi-skilled and cross-trained. This text will teach students how to meet the needs and demands of care at these alternate sites. It includes information on health care reform, managed care and its impact on health care delivery, a review of coding procedures for billing, current JCAHO standards for respiratory home care accreditation, protocols for respiratory home care and a discussion of subacute care and practical aspects of patient education. Supplements Instructor's Manual 0-7668-0145-4

Health Care Reform And It's Impact On Respiratory Care. Past And Current Concepts Of Pulmonary Rehabilitation. Criteria For Selecting Patients For Pulmonary Rehabilitation. Key Elements Of A Pulmonary Rehabilitation Program. Measuring And Assessing Outcomes Of Pulmonary Rehabilitation. Reimbursement For Pulmonary Rehabilitation. Clinical And Regulatory Aspects Of Subacute Care. Aspects Of Patient And Family Education. GLOSSARY. INDEX. About the Author Kenneth A. Wyka has been in the field of respiratory care since 1970. He obtained his bachelor's and master's degrees from Fairleigh Dickinson University in Teaneck, New Jersey, and formal training in respiratory care from the Lenox Hill Hospital School for Respiratory Therapy in New York City. In 1972, he founded the respiratory therapy program at Passaic County Community College in Paterson, New Jersey. Since then, he managed the respiratory care department at Valley Hospital in Ridgewood, New Jersey, was the director of respiratory clinical education at the University of Medicine Dentistry of New Jersey, started several pulmonary rehabilitation programs, worked in home care, and began a health-care/respiratory care consulting practice. He is the author of *Respiratory Care in Alternate Sites* and coauthor of *Oakes' Respiratory Home Care: An On-Site Reference Guide*. In addition, he has been the president of both the New Jersey and New York Societies for Respiratory Care and has been actively involved in several voluntary health and professional organizations. Currently, Ken is the Center Manager and Respiratory Care Patient Coordinator for Anthem Health Services in Queensbury, New York.
