**M.R. Burns, B.J. Horn Mang : Review Questions for Health Information Management: RRA and ART Examination Preparation (Review Questions Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Review Questions for Health Information Management: RRA and ART Examination Preparation (Review Questions Series):

This is a fully current, large-format review text of more than 600 questions with complete answers for the Health Information Management Examination, formerly called the Registered Record Administrator Examination. It covers

retention and retrieval of health records, management and personnel, legal aspects, statistics and research, performance improvement, computer questions, and classification systems and coding, plus a separate chapter on disease pathology. It also contains addenda of commonly computed hospital statistics, test taking strategies, and a reader survey, plus recommended readings and a bibliography.
