Kshitij Mankad : Revision Notes for the Final Frcr Part a (Postgrad Exams) before purchasing it in order to gage whether or not it would be worth my time, and all praised Revision Notes for the Final Frcr Part a (Postgrad Exams):

Revision Notes for the Final FRCR Part A summarises the core knowledge required for each of the six test papers that make up the exam, all in highly succinct bullet point format. The book takes the stress out of the revision process by providing candidates with a readymade set of highly synthesised and relevant notes that focus exclusively on the topics encountered in the exam. Thoroughly updated for the second edition, each chapter has been authored by

successful exam candidates and in turn edited by consultant radiologists to provide highly relevant, high quality, high yield revision notes. Key Points * Chapters mirror the structure of the exam: chest cardiovascular, musculoskeletal and trauma, gastrointestinal hepatobiliary, paediatrics, genitourinary, gynaecology breast, and neuroradiology/head neck * Only essential facts are presented and are based entirely upon past questions from the exam * Each revision topic is presented in a concise manner and exhaustive lists of differential diagnoses have been distilled into those conditions most often tested

About the Author Kshitij Mankad MRCP FRCR Consultant Paediatric Neuroradiologist, Great Ormond Street Hospital, London, UK Edward T D Hoey MB BCh MRCP FRCR Consultant Radiologist, Heartlands Hospital, Birmingham, UK
