review helpful. Too many misprints By Dr Misbah there are too many misprints in this book...really not upto the standard of international publication...need to improve that or else the whole effort of writing this book is a waste...

This is the only book that MCEM candidates will need to pass the MCEM Part A exam. This revision guide is framed around the most recent CEM syllabus, focussing on all the components of the exam and covering the basic sciences as they apply to Emergency Medicine. Each section of the book is tailored to match different elements of the syllabus, allowing candidates to revise efficiently and comprehensively. This concise revision tool is completely up-to-date, reflecting the latest developments in the examination. High quality artwork and a bullet-point style help candidates to absorb information quickly. The author is a successful MCEM candidate and Specialist Registrar in Emergency Medicine, and brings his considerable experience to this text.

About the Author Mark Harrison is a successful MCEM candidate and is now an Emergency Medicine registrar based at the Emergency Medicine Department in Newcastle General Hospital, UK. Previously he has worked in Orthopaedic and Vascular surgery at Freeman Hospital, Newcastle-upon-Tyne, and before that at James Cook University Hospital, Middlesbrough.
