**American Society for Healthcare Risk Management (ASHRM) : Risk Management Handbook for Health Care Organizations** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Risk Management Handbook for Health Care Organizations:

2 of 2 people found the following review helpful. Awesome Risk Management Resource...By KatyDivaThis Risk Management Handbook for Healthcare is absolutely awesome! It is professionally technical yet readable and I use it often. As a Quality Performance Improvement professional, the book is very helpful in describing the Risk Management perspective, impact, expectations, interaction with other disciplines and provides important information regarding how to be successful in the field. This is a worthwhile investment that I highly recommend!2 of 2 people found the following review helpful. Written at the high-school levelBy Debi\_EI purchased this book because it was assigned reading for a graduate-level class. Unfortunately, it seemed to have been written at a much lower level. I am thinking I should have purchased the three-volume edition instead of the student edition.I would not recommend this

book unless you need something at the absolute beginner level for Risk Management. 1 of 1 people found the following review helpful. Excellent Text Book By Anna-Maria H Johnson This text book does an excellent job of discussing risk exposures of health care organizations. It does a great job of crystallizing concepts via "Key Concepts" table, as well as, "Key Terms" and "Acronyms" list at chapters' end.

This comprehensive textbook provides a complete introduction to risk management in health care. Risk Management Handbook, Student Edition, covers general risk management techniques; standards of health care risk management administration; federal, state and local laws; and methods for integrating patient safety and enterprise risk management into a comprehensive risk management program. The Student Edition is applicable to all health care settings including acute care hospital to hospice, and long term care. Written for students and those new to the topic, each chapter highlights key points and learning objectives, lists key terms, and offers questions for discussion. An instructor's supplement with cases and other material is also available.

From the Back Cover The Official Handbook of the American Society for Healthcare Risk Management (ASHRM) Risk Management in Health Care: The Essentials (Volume 1 of the Risk Management Handbook for Health Care Organizations, Fifth Edition), presents the most authoritative guidance for today's health care risk managers. This is the most current edition of the book that has become a standard in the field. The three-volume set covers the enterprise-wide continuum of care and associated risk and has been thoroughly revised and updated to reflect the current changes in the health care environment. The Risk Management Handbook for Health Care Organizations offers current information, regulatory and legal updates, and assessment tools that will prove invaluable to both new and seasoned risk managers. The first volume focuses on the essentials of health care risk management and provides information on: Basics of Health Care Enterprise Risk Management Health Care Legal Concepts Introduction to American Law Governance of Health Care Organizations Development of a Risk Management Program The Health Care Risk Management Professional Risk Management Metrics Ethics in Patient Care Patient Communication Physician and Allied Health Professional Credentialing Documentation and Medical Records Basic Claims Administration Contract Primer for the Risk Management Professional Information Technology and Risk Management Health Information Management Introduction to Risk Financing Insurance Basics: Principles and Coverages Organizational Staffing Emergency Management The Basics of Occupational and Environmental Health American Society for Healthcare Risk Management (ASHRM) is a personal membership group of the American Hospital Association with more than 5,000 members representing health care, insurance, law, and other related professions.
