**American Academy of Pediatrics Council on School Health : School Health: Policy and Practice** before purchasing it in order to gage whether or not it would be worth my time, and all praised School Health: Policy and Practice:

Significantly revised and updated, the 7th edition provides the latest guidelines for developing health programs, including nutrition services, medication administration, physical activity and sports, and the school environment. New

in the 7th edition:New content on school health in medical education, family and community involvement, staff wellness, global school health, emergency and disaster preparedness in schools, and more.Updates on the role of the school physician, school nurse, and guidance on school-based screening, serving populations with unique needs such as allergies and asthma, mental health and social services, and program assessment and evaluation.

4-Star !"This is a unique contribution by a team of highly qualified, experienced professionals providing guidance in the areas of screenings, physical education and activity, mental health, nutrition, and safety in the school environment."Doody's Book 2016
