It is now available at audible.com which I recommend because you get to hear his lovely Scottish accent. There is also a sequel which is just as good.2 of 2 people found the following review helpful. What a Great ReadBy bobfReaders with Scottish ancestry will love this book. It is so typical of early twentieth century

Scottish country farming village life and is very unputdownable! 0 of 0 people found the following review helpful. Well written, interesting and clean. This reminded me ...By mreed Well written, interesting and clean. This reminded me a bit of James Herriot's books except that Tom Smith is a doctor for human instead of animals.

When he arrived to take up his first posting as a GP in Collintrae, a small fishing village on the west coast of Scotland, Tom Smith wasn't sure what to expect. Certainly nothing in his training could have prepared him for the likes of Mad Maggie, the baker with nine lives and the giggling nuns, to list but a few cases.

"It's all in a day's work for the James Herriot of human beings - Smith has an engaging style and beautifully captures the dramas in his patient's lives." Glasgow Evening Times "An entertaining and insightful read - " Daily Express "Characters and cases unfold in this delightful book that reads like All Creatures Great and Small but with people instead of animals - " The Glaswegian "Dr Tom Smith is an engaging storyteller who invites the reader to sit back in a comfortable chair and slip into a slower, more innocent world" The Glasgow Herald "A joyous feast from cover to cover, and not bedside table should be without it - " Medical Journal's Association newsletter About the Author Dr Tom Smith MB ChB, Dip Pharm Med is 66 years old. During the course of a successful medical career, he has been a GP, published several health books and made TV and radio appearances. He is also the author of Doctor, Have You Got A Minute? (Short Books, 2006). He is married with two children and five grandchildren and lives in Scotland.
