1 of 1 people found the following review helpful. Great Book If You are Looking to Buy or Sell A PracticeBy Alfred W. BrownAs owner of CRB Group, a business brokerage in California, I found this an invaluable reference for helping me to understand all the aspects and intricacies of selling a medical practices. Not being a doctor, this book helped me tremendously in understanding the the unique aspects of selling a medical practices. I do research on every business I sell and I can tell you from professional experience that medical practices are very different from your average main street business. If you are a doctor looking to buy, or sell, I highly recommed this book. And, if you are a buinss broker looking to help a buyer or seller of a medical practice, then I consider this book a must.
