Jack J. Kanski MD MS FRCS FRCOphth : Signs in Ophthalmology: Causes and Differential Diagnosis: Expert Consult - Online and Print, 1e before purchasing it in order to gage whether or not it would be worth my time, and all praised Signs in Ophthalmology: Causes and Differential Diagnosis: Expert Consult - Online and Print, 1e:

0 of 0 people found the following review helpful. Five StarsBy Ryan Ramoutarexcellent color text for the speciality0 of 0 people found the following review helpful. Ocular AtlasBy ODStudentI think the content and layout of the book is excellent. It provides a wide array of ocular conditions with great descriptions. I would recommend this book for others.

Jack J. Kanski, one of ophthalmology's most respected authors, brings you "Signs in Ophthalmology: Causes and Differential Diagnosis" - a comprehensive compendium designed to help you quickly and accurately interpret a broad spectrum of ocular signs. Over 1,300 clinical images, angiograms, and scans capture the clinical presentation of the full gamut of ophthalmic diseases and disorders, as well as systemic diseases with ocular manifestations, while concise text discussions assist your clinical decision making process. Your purchase includes access to a companion website where you can download all of the book's images for use in lectures and clinical presentations. Over 1,300 clinical images, angiograms, and scans capture the clinical presentation of the full gamut of ocular diseases and disorders. Concise text, with color-coded key information, guides you efficiently through each condition's causes, presentation, clinical signs, investigations, and other associated ocular and systemic conditions. An entire chapter addresses the differential diagnosis of systemic diseases with ocular manifestations. A multitude of bulleted lists and tables summarize important facts. A companion website lets you access a library of downloadable images for use in lectures and clinical presentations.

"Kanski's books are well-known reference work among today's ophthalmologists. The target group for this edition are doctors training in eye diseases, but it is also useful for the experienced ophthalmologist." Journal of the Norwegian Medical Association, June 2011
