I am at a loss as to how to get the answers for the manual. It got especially confusing in activity 4-4, where there was an online counterpart with "practice activity software" with no specific directions that related to the activity in the book. I am not too disturbed by this purchase- but I am waiting to hear back from Evolve support line. My rating thus far is stemming from the confusion, and I would change it if it gets addressed. The actual textbook for the course is otherwise very copacetic. Does anyone have any insight on this?0 of 0 people found the following review helpful.
