1 of 1 people found the following review helpful. Long, but lots of helpful tipsBy JayI have to be honest, this book was too long for me. I recommend readers who are short on time skim read it and cut to the helpful bits at the end. Overall, I'd say it's probably worth the cover price though.1 of 2 people found the following review helpful. It's good bits is that it is easy to read in ...By Jamie AdairNot your usual diet book. Firstly, this is written by a proper doctor. It's

good bits is that it is easy to read in a day. Second, is that you feel like it all makes sense. I'd buy it again! 1 of 1 people found the following review helpful. So that's why I gain weight...By Jennifer AllisReal weight loss for real people in the real world. I thought the beginning was heavy on the evolution. But I think it does what it says. He seems to know his stuff and gives home truths, but in a sort of nice way. As someone who has struggled with weight for years, this book is enlightening. Recommended for anyone who wants to be healthier and live better.

Well written, easily read: I recommend this book." "Like a breath of fresh air. A great addition to an admittedly crowded field." I like this book. Summer is coming and I want this belly gone!" "Lots of great info. Once I started, I couldn't stop til it was finished. Very Informative, straight to the point, helpful information. Would recommend it highly." "A must read for anyone looking to lose weight." "Very helpful and easy to read book. A fast read. Ill be referring to it again in the future. Good motivational tool. (5 stars)" "Interesting and informative. More people in the western world die from overeating versus undereating is shocking!" "Simple, easy to follow guide about diet, exercise and our DNA" "Highly recommend.(5 stars)" "Chock full of common sense, solid advice, as well as information to help us understand why we become obese. Skinny Genes is a great tool for anyone who is looking to make that first step towards losing weight, or even if they've already been on other diets that maybe havent worked that well in the past. I like the easy to read format and short, focused chapters, and the helpful bullet points. Recommend for anyone looking to lose a few and just need the encouragement to start." "I have a ton of diet books in my arsenal and am always looking for new ways to inspire and motivate me to eat healthier and give some creative solutions. I liked that this book. All the information was well-written in simple and clear manner that will be easily understood by just about anyone. (5 stars)"
