**Patricia Ashby : Speech Sounds (Language Workbooks)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Speech Sounds (Language Workbooks):

Speech Sounds: \* helps develop the fundamental skills of the phonetician \* investigates the various aspects involved in the production of speech sounds \* uses data-based material to reinforce each new concept \* includes examples from a wide range of languages \* provides dozens of exercises with solutions and cross-references \* can complement existing course or textbook material. The second edition of Speech Sounds has been revised and updated throughout and includes new examples and exercises, a new appendix giving information on career prospects; and a fully updated

further reading section.

About the Author Patricia Ashby is Principal Lecturer in Linguistics at the University of Westminster.
