Five StarsBy DeeHelped me graduate!0 of 0 people found the following review helpful. but for the amazing price and fast shippingBy TaylorThe cover fell off after 3 weeks of use, but for the amazing price and fast shipping, I could care less.0 of 0 people found the following review helpful. Great book from collegeBy Chris DanielsTook this class in college and could not wait to sell it back when I was in college for the money. Now that I'm out, I missed the book. It's a good book to go back and reference someday. Shipped in great condition and price was reasonable

Updated with the latest cutting-edge research findings, this Third Edition helps readers make the bridge between nutrition and exercise concepts and their practical applications. The book provides a strong foundation in the science of exercise nutrition and bioenergetics and offers valuable insights into how the principles work in the real world of physical activity and sports medicine. Case Studies and Personal Health and Exercise Nutrition activities engage readers in practical nutritional assessment problems. This edition includes the latest findings on such current topics as nutritional supplements, eating disorders, Healthy Eating Index, food labeling, MyPyramid, and obesity. A companion Website offers approximately 300 multiple-choice and true/false quiz questions to help readers prepare for exams.

Doody's Service, Jude Christopher Sullivan, MS -- "This is designed to be a 'cutting edge' teaching tool, learning tool, and reference resource. It provides such information as the latest Dietary Reference Intakes, normative tables (e.g., standards for overweight and obesity), up-to-date indices for monitoring change in health status (e.g. regional body fat distribution and health risks), as well as expanded chapters addressing the nutritional needs of physically active people and those in sports competition." Doody's Service, Jude Christopher Sullivan -- "It is a valuable teaching tool for the instructor, learning tool for the student, and information resource for the healthcare provider."
