**From Brand: Churchill Livingstone : Sports Coaching: Professionalisation and Practice, 1e** before purchasing it in order to gage whether or not it would be worth my time, and all praised Sports Coaching: Professionalisation and Practice, 1e:

Sports Coaching: Professionalisation and Practice is a comprehensive evidence-based textbook of sports coaching theory and practice. The book is edited by leading academics in sports coaching studies and authored by a world-renowned team of experts in sports coaching research. It deals with all aspects of coaching behaviour and practice, including coaches's decision making, coaching pedagogy, and the development of expertise. Each of the chapters provides an up-to-date position statement on coaching themes, and makes explicit reference to the professionalisation of coaching. Written in an accessible style, and identifying critical ideas and issues, the book will complement and

challenge both undergraduate and postgraduate teaching programmes, and will be an invaluable source of ideas for researchers and academics. Multicontributed chapters follow uniform structure to increase clarity and accessibility of text 'Snapshots' of critical ideas and issues presented as models or diagrams to facilitate students' understanding Case examples and scenarios illustrate key concepts in each chapter Latest research and current literature summarised for each thematic topic.

"The editors state the purpose of this book as being 'to make a position statement' about the nature of coaching, and our understanding of it 'in practice' (p. xi). In many ways the book can be seen as a sequel to John Lyler's seminal and widely cited book 'Sports Coaching Concepts'. The book is also highly recommended to serious coaches, who will find practical value from chapters such as those on athlete development, planning, ethics, coaching philosophy; as well the chapters on pedagogy. Simon Jenkins
