**Loran : Sports Vision, 1e** before purchasing it in order to gage whether or not it would be worth my time, and all praised Sports Vision, 1e:

Sports vision is a relatively new but fast expanding area of multi-disciplinary eye care involving not only optometrists but also dispensing opticians, ophthalmologists, athletes, sports organisations and coaches. This book deals with optimising safe and efficient vision in sport. Sports vision will be essential reading for everyone involved in sport wishing to optimise vision particularly optometrists but also ophthalmologists, athletes and trainers. 'For practitioners wishing to develop an active interest in the subject this book acts as a valuable guide to how they need to develop both their optometric and dispensing skills.' - Journal of British Contact Lens Assoc., January 1996 '..excellent.' - The Optician, March 1996\* NEW IN PAPERBACK \* \* \* Visual training, injuries and prevention, setting up a practice,

legal considerations and many other aspects of sports vision are covered in detail.
