APHA Task Force on Correctional Health Care Standards : Standards for Health Services in Correctional Institutions (Third Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Standards for Health Services in Correctional Institutions (Third Edition):

1 of 4 people found the following review helpful. needed a reference By Jack E. Birge what I got was right on target. The order was on time and dealing through is always a smooth and pleasurable experience.

The third edition of this book defines the scope of services that are necessary to provide adequate care, basing these standards upon principles of public health and constitutional standards developed through litigation. Previous editions of this book have been extraordinarily influential in this field. The book has been cited as the standard for jail and prison health services in state and federal court decisions. The new edition includes significant changes including expansion of both the mental health section, and children and adolescents section. This important book contains rigorously prepared community standards, reflecting a health environment to which any community, but particularly a jail or prison community, is entitled. The Third Edition sets standards of health care which are respectful of prisoner patients, and require prison and jail based health care workers to view themselves as independent health care workers first and foremost. The new edition of this book is easy-to-use and the most comprehensive and inclusive set of standards for health services in correctional institutions. It is an essential reference for anyone working or teaching in

any capacity in the field of corrections.
