**Stedman's : Stedman's Plus 2015 Medical/Pharmaceutical Spellchecker (Standard)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Stedman's Plus 2015 Medical/Pharmaceutical Spellchecker (Standard):

Excellent product and COMPATIBLE WITH LATEST OFFICE 365 (2016) PRODUCTS after a quick tech support registry fix By Spike Updated 12/29/2015: Straight out of the box, this product (the 2015 version) may not likely immediately compatible with Office 365 products (current builds

designated as "Office 2016"). When installing you will not have an option to select beyond Office 2013 and will get an error if you try to proceed. This morning I contacted the publisher to see whether there was an update or fix or workaround (their website indicated nothing about Office 2016 compatibility). I was immediately (yes, immediately) connected to someone in Technical Support and told that the registry just need to be adjusted on my computer and he could do so remotely. It took him less than 2:00 minutes and I was up and running. 0 of 0 people found the following review helpful. Worth it! By Dee S. Excellent spellchecker for work doing medical transcription.
